Re: Status of Exploration Project, Toprock Mine, E/045/034, Beaver County, Utah

Dear Mr. Wilson:

On March 4, 1999 we received your 1998 annual report stating that you no longer hold any interest in the Toprock mining claim and that the site has been inactive for 5-7 years. An onsite inspection by the Division occurred on November 12, 1999 and two open pits requiring reclamation were observed. As this project is located on Bureau of Land Management (BLM) lands, we cannot close our file until the BLM authorizes us to do so. We have been in contact with the BLM and they notified us that as there is still disturbance (open pits) at this site location, they have not released you from reclamation obligations. Therefore, the Division cannot release your notice and close out this file. Dropping mining claims does not relieve an operator from reclamation obligations.

In July 1999, we notified you that if the site was inspected and could not be released, then both the 1998 and 1999 permit fees would be due within 30 days. Therefore, we have enclosed another billing statement for your use. All unpaid fees will be sent to Utah State Collections. Please be advised that the 2000-2001 fiscal year billing statement will be due again the last Friday of July, 2000. If all work has been completed and verification received from the BLM that the site can be released, you will not have to pay the year 2000 permit fee. However, the 1998 and 1999 fees are delinquent at this time.

If you have any further questions or concerns regarding this letter, please contact me at (801) 538-5321 or my supervisor, D. Wayne Hedberg at 538-5286.

Sincerely,

Tom Munson
Senior Reclamation Specialist

jb
